

Help us turn plastic waste into a cleaner future.

We build dustbins from used bottles, plant trees with pupils and train young people and women in green skills. Partner with us to reach more schools and communities.

PURE EARTH
ORGANISATION

Innovate. Sustain. Transform.

What we have done

Since 2022 we have engaged and trained over 100 young people in environmental action. We have delivered bottle dustbins to schools, taught climate lessons, planted trees with pupils and carried climate adaptation messages to rural communities.

What your support can fund

- **Bottle dustbins for more schools**
- **School environmental clubs**
- **Trees for schools**
- **Green skills for youth and women**
- **The Pure Earth Innovation Hub**
- **Inclusive access**
